FOREWORD

Again it is our privilege to extend our thanks for your increased orders and kind letters showing satisfaction with Elm Hill Gladiolus. We have, this year, a crop of fine bulbs that is entirely up to our usual grade, and we are sure that they will please you.

We have had many calls for our bulletins and list them again. They contain the latest information and are free for the asking.

- No. 1 Outstanding Varieties of 1935.
- No. 2 Growing and Preparing Glads for Show.
- No. 3 Hints on Growing Glads.
- No. 4 Common Diseases of Glads and their Control.
- No. 5 Thrips and their Control.
- No. 7 Opportunities for the Hybridizer.

Size of Bulbs—Large bulbs (L) are 1¼ inches in diameter and up and are best to plant for maximum size bloom; medium bulbs (M) are ¾ inch to 1¼ inches in diameter and will bloom but bloom will be smaller than from L. bulbs; Small (S) bulbs are under ¾ inch and cannot be depended upon to make bloom although many of them will.

Our Guarantee—If any bulbs bought from us are unsatisfactory in any way we will replace them or refund purchase price.

Time of Shipment—Spring shipments start about March 15th, weather permit-

ting, unless wanted earlier. If no instructions accompany order it will be held until this time.

Terms—Cash before shipment or 25% deposit, balance C. O. D., 25% will hold orders until March 15th.

Ohio Customers Notice - Sales Tax—According to a recent Tax Commission ruling we must collect the 3% sales tax on retail sales. Stock for resale or commercial plantings must be covered by resale certificate. We will furnish this upon application.

1935 INTRODUCTIONS - *Gersdorff*

Cistena (S.Dec.) E.E.—A miniature that is really good. Pinard yellow with deeper throat. Florets are deeper yellow than *Primulinus* species and much less hooded. Will hold five to six open florets. Fine placement and substance. We consider this outstanding in the miniatures. Excellent for small containers and corsage work. L. 1-15c, 10-\$1.00; M. 1-10c, 10-60c; S. 1-5c, 10-40c.

Sunya (S. Dec.) E.—Another very fine miniature. Deep rose doree, bases of lower petals pinard yellow, effect - a light pure red with a soft creamy yellow throat speckled light pure red. Has brought much favorable comment wherever shown. There is no better glad for corsage work and small table arrangements. L. 1-15c, 10-\$1.00; M. 1-10c, 10-60c; S. 1-5c, 10-40c.

OLDER AND WELL KNOWN VARIETIES

These varieties are some of the older and better known standard varieties that, while they are low in price, have stood the acid test of time and are valued by many gardeners for their dependability. Many of them are also grown in large quantities by cut flower growers and others are valued by greenhouse operators for forcing purposes. This group does not include many current prize-winning varieties but we list it because many of our customers like these sorts and do not wish to change.

Each variety in this group is priced as follows: Prepaid.

CURRENT PRIZE-WINNING VARIETIES

The varieties listed here are the ones that are now winning the vast majority of prizes at all major shows. Some of them are older sorts and some are very recent introductions but they are all varieties of exceptional merit and will do well under practically any condition.

Aflame (Exh.-Dec.) M.—Flaming scarlet. Carries immense blooms on a very tall spike. L. 10-40c; M. 10-20c S. 10-10c.

Albatross (Exh.) E.M.—Clear snow white floret on a tall shapely spike. Lily like form, florets facing slightly up. L. 10-60c; M. 10-40c; S. 10-25c.

Amador (Exh.) M.—Large glowing red, looks equally well in sun or under electric lights. Outstanding. L. 1-15c, 10-1.20; M. 1-10c, 10-80c; S. 1-8c, 10-60c.

Austinette (S.Dec.) E.—Dainty blush pink with lacinated petals. Spike is will-

owy, makes an effective table decoration. L. 10-50c; M. 10-30c; S. 10-20c.

Ave Maria (Exh.) E.M.—Considered the best light violet. Bulbs are healthy and grow easily. Practically always a winner. L. 10-50c; M. 10-30c; S. 10-20c.

Bagdad (Exh.) L.M.—Mammoth smoky old rose, deeper toward edge of petals and lighter towards center, five or six open at one time. L. 10-60c; M. 10-40c; S. 10-25c.

Berty Snow (Exh.) E.M.—A very good lavender. Similar to but not equal to Minuet. Sometimes flakes in the sun. L. 10-40c M. 10-20c; S. 10-10c.

Betty Nuthall (Exh. Dec.) L.—Coral pink with pale yellow throat, general effect of salmon orange. Tall massive spike. Rapid propagator. One of the three most popular glads on the market. Excellent cut flower. L. 10-40c; M. 10-20c; S. 10-10c.

Prepaid List

- Bill Sowden** (Exh.) M.—Deep blood red. Five or six very large blooms open at one time. Massive stalk. L. 10-60c; M. 10-40c; S. 10-25c.
- Bleeding Heart** (Exh.) M.—White suffused pale pink with deep carmine blotch. Eight to ten open, very distinctive. L. 10-60c; M. 10-40c; S. 10-25c.
- Carmen Sylva** (Dec.) M.—Tall pure white, slender stem, good cut flower. L. 10-40c; M. 10-20c; S. 10-10.
- Carolus Clusius** (Dec.) E.—Light pink, petals have waxy appearance. Very fine for early cut flowers. L. 10-40c; M. 10-20c; S. 10-10c.
- Charles Dickens** (Exh.) M.—Violet purple, tall spikes. Considered to be the best purple. L. 10-40c; M. 10-20c S. 10-10c.
- Cistena**—See page 2.
- Commander Koehl** (Exh.) M.—Immense crimson red, heavy straight spike. Fine for cutting, has won numerous prizes the world over. This is without doubt the best red in existence. L. 1-10c, 10-60c; M. 1-5c, 10-30c; S. 10-20c.
- Crinkles** (Dec.) M.—Intensely ruffled rose pink. We believe it to be the most ruffled variety on the market. Fine if you like novelties. L. 10-40c; M. 10-20c; S. 10-10c.
- D. A. Hay** (Exh.) M.—Bright light pink with cream throat. Will carry 10 blooms open. This variety is new and has not had opportunity of winning many prizes as yet but has done well wherever shown. L. 1-\$1.00; M. 1-60c; S. 1-40c.
- Dr. F. E. Bennett** (Exh.) M.—Brilliant scarlet with white markings in throat. Considered the best scarlet. L. 10-50c; M. 10-30c; S. 10-15c.
